PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building responsive, end-to-end web applications — front-end interfaces in JavaScript, React.js, HTML5, CSS3, and Bootstrap, connected to back-end services in Python, Django, REST APIs, and SQL. Comfortable building and integrating REST APIs, debugging and optimizing application performance, and writing clean, production-ready code. Experienced with Git and GitHub for version control, code reviews, and deploying applications to cloud hosting. Skilled in data validation, quality checks, and cross-functional collaboration. Adaptable, curious, and committed to continuous learning in full stack development.

CERTIFICATIONS

Python Full Stack Web Development — ThinkWorks Infotech, Marthandam

Nov 2025 – Jun 2026 (Completed) | Python, Django, SQL, RESTful APIs, and full stack application development

TECHNICAL SKILLS

Frontend Development: JavaScript, React.js, HTML5, CSS3, Bootstrap, Responsive Design, DOM Manipulation

Backend Development: Python, Django, REST APIs (Build & Integrate), SQL

CMS & Website Building: WordPress

Core Concepts: Debugging & Performance Optimization, Clean Code Practices, Data Validation

Version Control & Deployment: Git, GitHub, Code Reviews, Cloud Deployment (Vercel)

AI-Assisted Development: ChatGPT

Professional Skills: Problem-Solving, Analytical Thinking, Technical Discussions, Cross-Functional Collaboration, Communication, Adaptability

PROFESSIONAL EXPERIENCE

Vintorix Private Limited

Associate Lead Engineer — Email Marketing & Campaign Operations

2023 – 2025

- Managed campaign databases and performed structured data validation and quality checks to maintain accuracy and reliability.
- Investigated data-related issues, performed root-cause analysis, and debugged and optimized processes to resolve them.
- Tracked performance metrics, prepared reports, and collaborated with cross-functional teams and technical stakeholders.
- Developed strong debugging, analytical thinking, communication, and collaboration skills.

FREELANCE EXPERIENCE

WordPress Developer — Freelance

Independent Client Projects

- Designed, built, and delivered a complete business website for **Vadivam Architects & Builders** using WordPress, taking full ownership from planning and development to launch.
- Worked directly with the client to understand requirements and deliver a responsive, professional website that works across mobile, tablet, and desktop devices.
- Offering WordPress website design and development services to small businesses and individual clients.

TECHNICAL PROJECTS

Movie Search App

- Built a React (Vite) movie browsing app that fetches popular movies from The Movie Database (TMDB) REST API using async/await with error handling, managing data through useState and useEffect hooks.
- Implemented real-time search filtering with a controlled input and derived state, rendering results through reusable movie card components styled with Bootstrap.
- Built a dynamic movie details page using React Router (dynamic routes and useParams) that fetches individual movie data by ID.

Quiz Website — frontend-quiz-seven-ochre.vercel.app/

- Built a fully responsive, multi-page quiz website using HTML5, CSS3, JavaScript, and Bootstrap, optimized for a consistent experience across mobile, tablet, and desktop devices.
- Implemented an anytime-quiz flow with a "Play Again" option to restart and retake the quiz without reloading the page, plus dynamic score calculation and display using JavaScript and DOM manipulation.
- Designed an easy, intuitive navigation structure across pages to keep the user flow simple and accessible.

EDUCATION

Bachelor of Engineering, Computer Science Engineering

St. Xavier's Catholic College of Engineering | 2019 – 2023

LANGUAGES

English, Tamil
